Introduction to AI Agents

Welcome to the Future

What are AI Agents?

- Autonomous software entities
- Can perceive their environment
- Take actions to achieve goals
- Learn and adapt over time

Strands Framework

Key Benefits

1. **Easy to use** - Simple API
2. **Flexible** - Multiple model providers
3. **Production-ready** - Built for scale

Example Code

```
from strands import Agent, tool

@tool
def my_tool(query: str) -> str:
    return f"Processing: {query}"

agent = Agent(tools=[my_tool])
agent("Use my tool")
```

Thank You!
